

PIIVeC's Call for Proposals for Seed Fundings

PIIVeC ("Partnership for Increasing Impact of Vector Control") is launching a call for proposals to seed funding. The purpose of this call is to **provide funds to researchers or students at the Centre for Research in Infectious Diseases (CRID) to develop research initiatives under the Departement of Parasitology and Microbiology. Each proposals will receive a maximum funding of £750 for a duration of 5 months.** Proposals should focus on one of the following vector borne diseases including Trypanosoma, Leishmaniasis and Arboviruses

Proposals should comprise of the following information:

- a short description (max. 2 pages) of research acitivities/project development
- a project plan with milestones
- a budget not exceeding £750
- a CV of researchers involved

The last date to submit the applications is 17th June 2021. For more information, contact Dr Cyrille Ndo (cyrndo@yahoo.fr).
